

ARYURVEDA FACIAL

Ayurveda at the Peaceful Presence Yoga Studio

Ayurveda doesn't stop even when the symptoms of imbalance are gone. The final goal of this life science is not just freedom from disease but to balance body and mind, the face

and skin so we look naturally vital and blemish free, and we literally radiate a fresh, happy, peaceful feeling from within.

The products we currently use are Bindi. Bindi products are based on the ancient principles of Arurveda-the original healing science of India. Arurvedic wisdom holds that providing the skin with the purest nourishment possible not only allows for total self-correction of the skin, but also has profound healing effect on the entire person.

Sigal has been practicing cosmetology since 1988. She is a licensed cosmetologist in NY State. She is experienced in Ayurveda and you can see the wonderful results right on her face.
